

AVI Penned an Op-ed on ASEAN-EU Cooperation on the Green Deal

Dr. Chheang Vannarith, President of AVI, penned an op-ed on ASEAN-EU cooperation on the green deal. He argues that ASEAN and the EU should further concretise their cooperation on the Green Deal by focusing on strengthening the capacity of ASEAN Member States to develop and implement green economic policies, as well as their access to green finance and technology.

AVI Commentary on The Green Deal: Can Humans Conquer the Challenges of the Anthropocene?

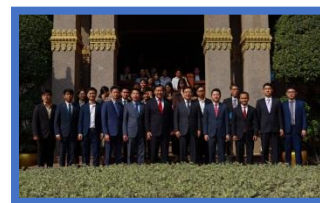

The dominant role of humans in nature has led to the destruction of forests, the acidification of oceans, the extinction of species, and the increase of carbon concentration in the atmosphere leading to dramatic global warming. This article argues that humans can address the challenges of the Anthropocene.

[AVI Commentary on Foreign Aid as a Catalyst for SDG 17 Implementation in Cambodia: Partnership for Sustainable Development](#)

Despite its status as a developing country, Cambodia has strived to carry through the Sustainable Development Goals (SDGs) of the United Nations 2030 Agenda to achieve economic progress and become environmentally responsible. Among the 17 SDGs, Goal 17 (Partnership for Sustainable Development) focuses on restoring and strengthening the global partnership to implement sustainable development. This article discusses how foreign aid helps Cambodia achieve SDG 17.

[AVI Made a Presentation on Humanitarian Innovation at the Cambodian Red Cross](#)

Dr. Chheang Vannarith, President of AVI, made a presentation on humanitarian innovation to senior leaders and technical staff at the Cambodian Red Cross. According to him, innovation in the humanitarian sector is a matter of necessity as the demand for humanitarian needs and relief is on the rise while the resources become scarce. Humanitarian innovation is applying innovative ideas, products, approaches, and processes to address humanitarian issues more effectively and efficiently.

[AVI Shared Views on Green Innovation](#)

Dr. Chheang Vannarith, President of AVI, shared his views on green innovation at the webinar co-organised by The Asian Network and ERIA. He argues that multi-stakeholdership, transparency, leadership, green financing, and accountable public and private institutions are crucial for green development, climate change mitigation, and adaptation. The ASEAN Green Deal's concept proposed by Cambodia in 2022 is being developed. Social justice, environmental justice, and economic justice should be the guiding principles of the ASEAN Green Deal.

[AVI Attended the International Conference on “Shanghai Cooperation Organization \(SCO\): Reconnect - Rejuvenate”](#)

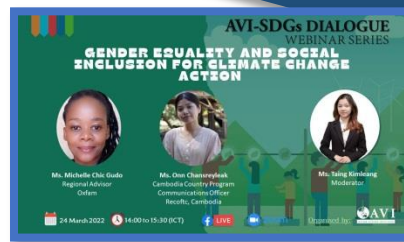

Mr. Lim Menghour, Director of Mekong Centre for Strategic Studies (MCSS), Asian Vision Institute, attended the International Conference on “Shanghai Cooperation Organization (SCO): Reconnect - Rejuvenate”, 23-24 March 2023, in New Delhi, India. Delivering his intervention on the theme “Reconnect and Lead: SCO’s Role in Enhanced Integration”, Mr. Lim highlighted the important role of SCO in promoting connectivity, cooperation, and socio-economic development of the region and beyond. He argued that SCO would become another prominent multilateral platform reinforcing peace, security, stability and prosperity of the region and the world.

[AVI Shared Views on RCEP and Maritime Cooperation at the Boao Forum on Asia](#)

Dr. Chheang Vannarith, President of AVI, shared his views on RCEP and maritime cooperation at the Boao Forum on Asia in Hainan, China. He argues that RCEP is critical to deepening regional integration and connectivity, helping members to better recover from the COVID-19 pandemic and accelerating domestic institutional reforms, including digital transformation.
